**INDEPENDENT ART SPACE IN THE RAVAL, BARCELONA**

The Cascadas (CCD) ArtSpace is an independent multifunctional feminist space that combines residencies, seminars, workshops, individual and collective research in one, located in the heart of the Raval neighborhood of Barcelona. It builds on the power of continual change and non-conformism that is the essence of the Raval: a place on the unprotected margins of the city—the medieval *rabad* of Moorish times—where meaning is afloat and art reinvents itself as identity. CCD ArtSpace aims to

use this eccentric, marginal yet cosmopolitan interface to foster collaboration, cultural exchange, and innovative approaches to the art experience at large. It does so in the openness of the undefined and unfixed. CasCaDas ArtSpace is a curatorial initiative set up to work with national and international emerging and mid-career artists on site responsive exhibitions and projects, in our multifunctional space that combines living, working and research in one.

**CasCaDas ArtSpace** is directed by artist, researcher and curator [Dr. Fiona Fell](#), and co-curated with artist [Julia Aurora Guzmán](#)
